It's gonna go a little something like this
Gonna lean in to give you a kiss
You're gonna get a little tingle in your lips
And I bet you'll want another

I've been waiting for a pretty long time
Been standing in a pretty long line
Now I'm staring in your pretty little eyes
Girl, don't make me suffer
I'm about to show you some love
Girl, I think you best buckle up

Look at our small town spinning around
We got our feet dangling high off the ground
Can you believe, baby, how good it feels
Falling in love on a Ferris wheel? Falling in love

I can see the top of your house
Bet your daddy's getting worried 'bout now
Probably got that telescope out
And hates my arms around you
Operator says, "I'm sorry", we're stuck
I say girl, how lucky for us

Look at our small town spinning around
We got our feet dangling high off the ground
Can you believe, baby, how good it feels
Falling in love on a Ferris wheel? Falling in love

Look what we've found
A hundred feet off the ground
Don't you look down, look at me

And our small town spinning around
We got our feet dangling high off the ground
Can you believe, baby, how good it feels
Falling in love, falling in love?

Look at our small town spinning around
We got our feet dangling high off the ground
Can you believe, baby, how good it feels
Falling in love on a Ferris wheel? Falling in love

Falling in love on a Ferris wheel
Falling in love, on a Ferris wheel
Falling in love

We go 'round, we go 'round, we go 'round
We go 'round, we go 'round, we go 'round
We go 'round, we go 'round
On a Ferris wheel, falling in love
