Pierette, Pierette
I've got a love that won't quit.
When we met a life was lived
Right here in my heart for you.

Pierette, Pierette
Well, how could we ever had known?
When we left ourselves alone
All the trouble we be going through.

When two people love each other
Ain't that reason enough?
When two people have two others
Well that's the saddest end of love.

Pierette, ohhh, Pierette
How can I ever forget?
Your regret and we will meet half way.
Won't please come back and lead this man astray?
Won't please come back and lead this man astray?
Won't please come back and lead this man astray?
