Better pull up a chair, sit back  
Lemme tell you how it all comes down  
Oh, yeah

You gotta treat her like a lady  
Talk her like a baby  
Stimulate her inside out  
Oh, yes

It's not a question  
Of how many times you try  
If you wanna get the honey  
You gotta do it right

And you get her, kiss by kiss  
Give her every little thing she wants  
And don't resist  
You'll have it made  
(Made)

Have it made  
(In the shade)  
But it's gonna be a little bit of work  
That's what I say

A little romance, won't hurt you  
Gotta tell her when she's lookin' fine  
Whoa, yeah

Gotta do a little more  
Than a push of the door  
Do it for her all the time

It's not a question  
Of how many times you try  
If you wanna get the honey  
You gotta do it right

And you get her, kiss by kiss

Give her every little thing she wants  
And don't resist

You'll have it made  
(Made)

Have it made  
(In the shade)  
But it's gonna be a little bit of work  
That's what I say

It's time you live your dream  
Tonight  
Better get used to the fact she makes it alright

It's not a question  
Of how many times you try  
If you wanna get the honey  
You gotta do it right

And you get her, you get her, kiss by kiss  
Give her every little thing she wants  
And can't resist  
You'll have it made  
(Made)

Have it made  
(In the shade)  
But it's gonna be a little bit of work

You get her, kiss by kiss  
Give her every little thing she wants  
And can't resist  
You'll have it made  
(Made)

Have it made  
(In the shade)  
But it's gonna be a little bit of work

You get her, kiss by kiss
