"Give What You've Got"

Visit "[Give What You've Got](#)" on MotoLyrics.com

I see this guy over here who cares more about the car
he drives
And this girl over there she cares more about her
diamonds size
Just take a look around there's people starving in the
streets
And if I point my finger at you what do I see?
There's 3 fingers pointing back at me
What will it take, how can we make, this problem we
have go away
Give what you've got, it won't take a lot, make
someone's life better today
I'm not talking about giving them material things (no)
I'm also talking about giving them love , hope and
courage to reach their dreams
Just take a look around there's people starving in the
streets
And if I point my finger at you what do I see?
There's 3 fingers pointing back at me
What will it take, how can we make, this problem we
have go away
Give what you've got, it won't take a lot, make
someone's life better today
Solo
Just take a look around there's people starving in the
streets
And if I point my finger at you what do I see?
There's 3 fingers pointing back at me
What will it take, how can we make, this problem we
have go away
Give what you've got, it won't take a lot, make
someone's life better today
(Repeat)
