Sing that song again for me, she said
Read to me those words that no ones ever, ever read
When you were old and ravens kept you fed
PRE - CHORUS
But I try, and I try, and I try, but I just can't get it right
Keeping sighs, weary eyes, afraid of when the sun
would rise
Making time, a blur that blew right on by
CHORUS
One more day behind me, push me on
Walk beside me, make me strong
Keep reminding me of who to be
And how close I am to my dreams
Walk with me and watch the wind blow by
She ran ahead and spun beneath a britely spotted sky
To touch it, all you have to do is fly
PRE - CHORUS
REPEAT CHORUS
BRIDGE
When I've lost the will to fight some more (Lift my
head)
And all the days when I just shut the door (Lift my
head)
Every time I find I'm lost and I've nowhere to stand
And it's over now, over now, Lift my head
REPEAT CHORUS
