Pack your bags we're going away
Maybe tomorrow, maybe today
Get yourself together, I'll be coming for you
I know a place that's one of a kind
It's far away, but easy to find
I've paid in advance, there's just one thing you've gotta
do
Go to the station and tell 'em
You're putting your faith in me
Tell 'em that you've opened your heart
And say you believe, then you'll get what you need
And if you want it, you gotta take it
'Cause without it you'll never make it
Better hurry soon we'll be leaving
Get your one way ticket to freedom
I've been working every day
Building a house where I want you to stay
Blood, sweat and tears have gone into every frame
High on a hill so far away
The deed's in your name and the mortgage is paid
Paid in advance, there's just one thing that you've gotta
claim
PRE-CHORUS
CHORUS
Nothing comes easily
Nothing in life is free
But I'll give you everything
If you'll love me unconditionally
