(Prov. 5:18-19)

People talkin' 'bout devotion
They make it out to be a foolish notion
But we know better baby you and I
You got me feeling sweet emotion
Smooth sailing on a clear blue ocean
Ain't no stormy weather on our sea of love
(Woo woo) Wanna tell you that I love you
(Woo woo) And I'm always thinking of you
(Woo woo) And I promise you
We're always gonna stay together
I've seen a lot of desperation
Lonely people searching for a reason
I'm so thankful honey that you're mine
So if you need some inspiration
Ah consider this your invitation
Safe from stormy weather in our
House of love
REPEAT CHORUS
We're always gonna stay together, I know
We'll never part
I've loved you from the start, united heart
And soul forever
Day in, day out's getting better
REPEAT CHORUS
