I know how she's feeling now, all alone with no place
left to go
He's broke her heart a million times, he doesn't seem
to care and so it shows
All she wants is to be loved, no that's not selfish that's
just what she needs, yeah she needs
And so she says this simple prayer, "God above I know
your out there"
CHORUS
I love him more than life, so much more than he'll ever
know
Can YOU save us tonight so he'll love me tomorrow
It's so hard to see her cry, I wish that I could somehow
dry her tears
Or give her wings that help her fly to where she used to
be or even near
All she wants is to be loved, no that's not selfish that's
just what she needs, yeah she needs
And so she says this simple prayer, "God above I know
your out there"
CHORUS
I love him more than life, so much more than he'll ever
know
Can YOU save us tonight so he'll love me tomorrow
SOLO
CHORUS
I love him more than life, so much more than he'll ever
know
Can YOU save us tonight so he'll love me tomorrow
(Repeat Chorus)
