(Isaiah 38:3)

When I was a young boy I never did see
The kind of love You've given me
But now that I'm a grown man
I've come to understand
What You're kind of love really means
There's times when I fall short and I make my mistakes
That's the beauty of it all
You're there to catch me and pick me up
When I fall
Like an eagle flying higher and higher
You have given me the courage
And given me desire
All I wanna do is love You
Wanna love You every day, every hour,
Every minute
Can't take my eyes off of You
Got a fire in my heart and
You're the One who lit it
I've been tryin' lately to open my heart
I try to put my pride aside
Sometimes I get angry
But You're still standing right by my side
You make me want to fly higher and higher
You keep giving me the courage
And giving me desire
(REPEAT CHORUS 2X)
