Sent like an angel from heaven above
Enrapturing me with your love
When we embraced, undeniably
You were the one for me
The first time that I saw you smile
It felt like a summer breeze
I'll say without any denial
You've captured my heart unquestionably
That's why I'll love you with all of my life
And why I'll cherish your love day and night,
Forevermore
When we first met, my only regrets
Were all of the years without you
I'll always remember, no I'll never forget
I looked in your eyes and knew
That we'd spend forever together
And we'd build each other's dreams
I knew we would always endeavor
To live every day passionately
CHORUS
When I count my blessings
I count you twice, for making me realize
That I won't be guessing
Baby, spending my whole life with you
