When you feel the sunlight fade into the cold night
Don't know where to turn, I don't know where to turn
And all the dreams you're dreaming seem to lose their
meaning
Let me in your world, baby, let me in your world

All you need is someone you can hold
Don't be sad, you're not alone

I will be here for you
Somewhere in the night, somewhere in the night
I'll shine a light for you
Somewhere in the night, I'll be standing by
I will be here for you

In this world of strangers, of cold and friendly faces
Someone you can trust, there's someone you can trust
I will be your shelter, I'll give you my shoulder
Just reach out for my love, reach out for my love

Call my name and my heart will hear
I will be there, there's nothing to fear

I will be here for you
Somewhere in the night, somewhere in the night
I'll shine a light for you
Somewhere in the night, I'll be standing by
I will be here for you

I will be here for you
Somewhere in the night, somewhere in the night
I'll shine a light for you
Somewhere in the night, I'll be standing by
I will be here for you

I will be here for you
Somewhere in the night, somewhere in the night
I'll shine a light for you
Somewhere in the night, I'll be standing by
I will be here for you, I will be here for you
