Shawty threw me up to the sky
Deliver the justice
Never let let me fall
Possibility exists

Throw me up to the heavens
Deliver the sermon
Always take take control
Always so damn determined

Hold me tightly lightly touch me
Kiss me baby maybe just me

Baby, tell me
How far you wanna fly to the sky
Baby, you know
With you I've never felt so alive

Shawty threw me up to the sky
Deliver exemption
Take it all through the soul
And promise redemption

Throw me up to the heavens
Deliver salvation
Try your best to resist this
This burning temptation

Hey I must confess
Got me really obsessed
Tell me what you want
While I get undressed

Pull me in so close,
Never felt this way,
Ey, feelin so exposed,
Oh, baby just obey, ey

Gonna dance for you
Dilate your eyes
Enjoy the ride
Lift me to the sky

Hold me tightly lightly touch me
Kiss me baby maybe just me

Baby, tell me
How far you wanna fly to the sky
Baby, you know
With you I've never felt so alive

Soar to the sun
Beyond the clouds
Starlights begun
Find me within the crowd

The game has just begun
Let's fly to the sky
Make me scream out loud

Baby, tell me
How far you wanna fly to the sky
Baby, you know
With you I've never felt so alive

Hold me tightly lightly touch me
Kiss me baby maybe just me

Baby, tell me
How far you wanna fly to the sky
Baby, you know
With you I've never felt so alive
