Severed my roots of dead family trees  
Finding the damage inside (of me)  
Parting blood red seas on bended knee  
Too much to ask when it's so hard to breathe  
No way out  
Tearing my soul to finally see  
The real wreckage between (you and me)  
A cold grin for these [illegible] door  
My haywire heart, your product of war  
No way out  
Cutting myself for clarity  
Jest keep falling  
No way out, cutter  
Cutting myself for clarity  
I just keep falling into darkness  
Cutting myself for clarity  
Just keep falling  
One way down  
No way out
