There are days I can't even remember
You know how good my memory is
Too many good ones because of you
And the bad times still have to come
(Still have to come)

We'll take it the way we should
We'll take it the way we are
(We'll take it the way we are)

Sometimes it feels like I'm gone away with my mind
And when I think I know myself so well
Everytime you do me wrong
'Cause you're always right with me

I'll always remember you like a child to his father
I'll always remember you
For the love that you gave me
And the things that you've done for me
(Done for me)
I'll always remember you
You were there since the day I was born
I guess I have to pay you back
Someday, someday, somewhere...
Someday, someday, somewhere...
(Maybe you're calling to me)

Maybe you'll never see me standing
The way I deserve, the way you want for me
It doesn't depend on you
If nobody sees who I am like you do, whoa
See how time has just slipped away...
The only thing we can't stop

Sometimes it feels like I'm gone away with my mind
And when I think I know myself so well
Everytime you do me wrong
'Cause you're always right with me

I'll always remember you like a child to his mother
I'll always remember you
For the love that you gave me

And the things that you've done for me
(Done for me)
I'll always remember you
You were there since the day I was born
I guess I have to pay you back
Someday, someday, somewhere... Ooh, somehow!

I'll always remember you like a brother to his sister
I'll always remember you
For the love that you gave me
And the things that you've done for me
(Done for me, done for me)
I'll always remember you
You were there since the day I was born
I know I've got to pay you back
Someday, someday, somewhere...

I'll always remember you...
I'll always remember you...
I'll always remember you...
