There are many places where Iâ'll never go  
Even though Iâ'm still searching for  
The quiet place inside my mind, inside my heart  
I may never find it  
(I may never find it...)

Well Iâ've been hurting for too long  
The pain became my mentor  
(The pain became my mentor)  
Â'Cause I got drunk with the juice of your heart  
You could feed the whole world on it

I gave you more than I had taken  
Well I know I was wasting my time  
DonÂ't wanna dream about another world  
I live for you, I cry for you  
You donÂ't get wet with all my tears  
My heart is always filled with sorrow  
Will I keep wasting my time?

I hear them laughing...  
Were they really right?  
And now Iâ'm hoping that one day youÂ'll still be mine  
(YouÂ'll still be mine...)  
Â'Cause I got drunk with the juice of your heart  
I couldnÂ't feed my world without it

I gave you more than I had taken  
Well I know I was wasting my time  
DonÂ't wanna dream about another world  
I live for you, I cry for you  
You donÂ't get wet with all my tears  
My heart is always filled with sorrow

Will I keep wasting my time?  
Hoping it would never end?  
Iâ'll never believe anymore... No  
Will I keep wasting my time?  
Hoping it would never end?  
Iâ'll never believe anymore...

I gave you more than I had taken

Well I know I was wasting my time  
(I don't wanna waste my time, no more)  
Don't wanna dream about another world  
I live for you, I cry for you  
You don't get wet, wet with all my tears  
My heart is always filled with sorrow

Will I keep wasting my time?  
Hoping it would never end?  
I'll never believe anymore... No  
(No, no, no...)

Will I keep wasting my time?  
Hoping it would never end?  
Mmm, will I keep on... Yeah, wasting my time...

(Wasting my time)  
Wasting my time again... Ooh, no...  
No more, no more, no more wasting my time...  
(Wasting my time)
