All these stars around  
Let them shine on down  
Shine all over you

The future isn't planned  
Now I understand  
What you're going through  
But have no fear  
I am here to hold you

And I said that I would  
Protect you from the dark again  
And I meant it  
I promised to catch you if you fall again  
And I'll save you always

So let the rain come on down  
And fall about the ground  
And fill in all around

Whatever you will be  
Is more than you can see  
And waiting for you now  
So have no fear  
I am here to hold you

And I said that I would  
Protect you from the dark again  
And I meant it  
I promised to catch you if you fall again  
And I'll save you always

And if your blue skies turn gray  
You can't get out of bed today  
I'll tell you  
Time and time again

I said that I would  
Protect you from the dark again  
And I meant it  
I promised to catch you if you fall again

And I'll save you always
