is it too bad to say a few things for you?  
is it too much to have a big tattoo?  
some things you have to do if you dont want life be  
hard  
i just want some love from you to you

is it too bad to say a little things for you?  
is it too much to have a big tattoo?  
is it too hard that you are like cartoon?  
i dont think so.  
is it too mad care a little bit your self?  
to kiss me so so soft like clouds on earth  
ohh no.i dont think so.

dont use your mouth to complain all the time  
dont make your self feeling something cheap.just  
think about you and me turn your head to the sky  
you will never loose me please dont think of stupid  
things
