Will you be my lover, forsaking all others
Will you be mine, my man
And I'll be your girl, even till the end of the world

What if I lived in a mountain
Surrounded by nothing but snow
My only desire
Is that you be my fire
The light of my life and to keep me warm

(Chorus):

Baby if I hopped on a plane
And told the pilot take me away
I wonder would you still remain
Would you stay with me
Even till the end of the world
jWould you still want me to be your girl
Would you be my lover
Forgetting all others
Even till the end of the world

What if they put me in prison
For reasons that you'd never know
Would you stand beside me
And call me your wifey
Would you love me forever
Or would you go

(Chorus)

Until the end of time Forever be my lover
Our hearts will intertwine
And could you be my baby
Protect me from the storm
And I love you forever
Just hold me in your arms

(Chorus)
