It was just a conversation in the corner of a crowded
room
I saw a little transformation in the attitude but the way
you moved
If you won't change your mind
Leave all these problems so very far behind

It's up to you, it's up to me
We can solve these mysteries
Just you wait and see, yeah

Let's make it up, let's make it up now
Let's make it up, let's make it up now
Let's make it up, let's make sweet love now
Or we'll be sorry for the rest of our lives

It's just a little meditation on the future of our own past
You've always been my inspiration
From your first look to your very last glance
Would be a shame, would be a tragedy

To drown our love down in the dark sea
Let's talk it over, let's make a deal
Let's leave all these trash behind
You know how I feel

Let's make it up, let's make it up now
Let's make it up, let's make it up now
Let's make it up, let's make sweet love now
Or you'll be sorry, sorry for the rest of your life
Ooh yeah

I hope you're gonna change your mind
Let's leave this [unverified] so very far behind
It's up to you, it's up to me
We can solve these problems
[Unverified]

Let's make it up, let's make it up now
Let's make it up, let's make it up now
Let's make it up, let's make sweet love now
Or we'll be sorry, sorry, sorry for the rest of our lives

Let's make it up, let's make it up now, now, now, now
Or we'll be sorry, sorry, sorry for the rest of our lives
