"Say You Will"

Visit "[Say You Will](#)" on [MotoLyrics.com](#)

Cast all your fear aside and say you will

Say you will be mine

And stay with me untill the end of time.

And help me

help me grind this mill of life

Say you will

Say you will be mine.

And times and costumes may changed

And life make ye' desert

My heart is deep in the country

But I life for the city.

Chase in those green fields and lie just over the hill.

Isn't any time that I risk for the time to stand still.

I need a lover as surely as I need a friend

Someone who's loughter are lean on to tie our lifes together.

Cast all your fear aside and say you will

Say you will be mine

And stay with me untill the end of time.

And help me

help me grind this mill of life

Say you will

Say you will be mine.

We're on an ship back to sea and it's stormy weather

Why don't you promise to me devotion for ever?

The hill sides are yellow and green and the autumn still blue.

We will make passion and love by electrical moons.

I need a lover as surely as I need a friend

Someone who's laughter are lean on to tie our lifes

together.

Cast all your fear aside and say you will

Say you will be mine

And stay with me until the end of time.

And help me

help me grind this mill of life

Say you will

Say you will be mine.

Cast all your fear aside (and) say you will

Say you will

say you will.

You make my heart come alive - say you will

Help me

help me

help me

help me

To grind this mill

to grind this mill of life.

Say you will

say you will be mine.....

Come on

come on

come on

come on

Say you will

say you will be mine.

Say you will

say you will

say you will be mine.
