A little bird told me that you love me
And I believe that you do
This little bird told me I was fallin'
Fallin' for no one but you.

There's no use denying
I might as well confess
Of all the girls I know, dear
I'm sure I love you best.

The little bird told me we'd be happy
And I believe that it's true
This little bird told me we'd be married
Yea, Yea, And I believe that it's true.

We'll have a pretty cottage
Not too far
All fenced in like a movie stars
We'll call him Ace
Lying there by the fireplace
A goldfish pond and a wishing well
Everything is gonna turn out swell.

A little bird told me we'd be happy
Yea, yea, And I believe that it's true
For I believe that it's true
Don't you know that I believe that it's true
Well baby, I believe that it's true...
