Darling, I love you, can't you see
So help me, and love me all you can
And if you love me, then love me
For what I am, not what I should be
Woman be proud of your man.

Walk with me, not on me,
Talk to me, not about me
Help me don't hurt me
Be proud of your man.

Laugh with me. not at me
Look at me. not through me
Face me, don't disgrace me
Be proud of your man.

--- Instrumental ---

Pull with me, not against me
See some good in the bad in me
Reassure me, don't destroy me
Be proud of your man.

Be behind me, not above me
Hold me, don't control me
Help me, don't hurt me
Be proud of your man.

Woman be proud of your man...
