Because you love me the stars do shine  
Because you love me the world is mine  
Because I love you you'll always be  
My everything, my only love eternally.

Because you love me angels sing  
Because you love me I have everything  
Because you love me my life is complete  
My darling star I know you are my destiny.

Because I love you the church bells ring  
Because I love you I have everything  
Because I love you I want you to be  
My only love for evermore, eternally...
