

Conway Twitty "Clown"

Visit "[Clown](#)" on MotoLyrics.com

You love the way it makes me feel when I cant catch my
breath
Like walkin on a high wire, Lord, it scares me half to
death
You're always high above me and Im always fallin down
Our loves just a circus baby, and Im just the clown.
And Ill do tricks for you, just like you want me to
Ill do anything it takes just to hang around
Ill paint a smile for you to cover up my frown
'Cause our loves a circus and Im just the clown.
Everyones in love with you, but they just look at me and
laugh
And Ill bet when they see me cry, they think its just an
act
Ah, but someday when its over and we bring the big top
down
You can say it was one big circus and I was just the
clown.
And Ill do tricks for you, just like you want me to
Ill do anything it takes just to hang around
Ill paint a smile for you to cover up my frown
'Cause you love the circus, but you dont love the
clown...
