I sure am gonna miss them old twin fiddles  
I love to sing them good ole country songs  
But my whole world's a blue eyed girl, in Memphis  
And I'd be down there with her, for too long.

Midnight train to Memphis take me easy  
Let me look back on the things I'm gonna lose  
Nashville will never know I'm leavin'  
And it gives a country boy them grand ole blues.

--- Instrumental ---

I wish I had my old guitar to play  
I feel some good ole mem'ry fade away

Oh Lord, I see the main street lights of Memphis  
And that woman leaves me shakin' in my shoes  
Oh, woman's lips will kiss me her lovin' arms will hold me  
And help me make it through these grand ole blues.

But Lord, I'm gonna miss them old twin fiddles  
And it gives a country boy the grand ole blues.

Her love is waitin' there in Memphis  
And don't you know it leaves me shakin' in my shoes  
Oh, woman's lips will kiss me her lovin' arms will hold me  
And help me make it through these grand ole blues.

Oh Lord, I see the main street lights of Memphis  
And that woman's standin', shakin' in her shoes  
Oh, woman's lips will kiss me her lovin' arms will hold me  
And help me make it through these grand ole blues...

--- Instrumental to fade ---
