Today the thought of leaving you wandered through  
my mind  
And all the sleeping memories that we made  
I've thought about the love we knew that one day upped  
and died  
It wasn't even strong enough to fade.

Soon as I am strong enough I pull myself away  
Your little love mean long enough and hurt me anyway  
Then you come to me and stay and love me  
One more time I changed my mind.

--- Instrumental ---

I've been good and true to you but you don't even care  
I'd be better off if you just turn and gone  
But then I've thought of losin' you is more than I can  
bear  
Yes I am too weak to make it on my own.

Soon as I am strong enough I pull myself away  
Your little love mean long enough and hurt me anyway  
Then you come to me and stay and love me  
One more time I changed my mind...  
I changed my mind
