I got a good thing going and I guess it's showing
Everybody knows what I've got goings going on
She loved me and I let her down and now upset her
And now the good thing I got going's going, going,
gone.

And I just started feeling the real is off her leaving
And without of that she's the reason that I sing this
song I'm singing
I got a good thing going and there's no way of knowing
Just how far her leaving's gonna take her off or how
long.

She never thought I refused her but I sure misused her
I got a good thing going, going, going, gone.
