

## Conway Twitty "I Made Her That Way"

Visit "[I Made Her That Way](#)" on [MotoLyrics.com](https://MotoLyrics.com)

See that girl over there by the jukebox  
Hear the lonely song that she play  
Well, you ask me if I know why she's crying  
I know a little, I made her that way.

Well, you ask me if I know why she's lonely  
And why her head is dizzy from wine  
And did I know she was everybody's baby  
I know a little, for once she was mine.

Well, I knew her when she was happy  
And I love you, was all she could say  
But a lot of times I let her get lonely  
I know a little, I made her that way.

--- Instrumental ---

I knew her when she was happy  
And I love you, was all she could say  
But a lot of times I let her get lonely  
I know a little, I made her that way.

I know a little, I made her that way...
