I See The Want To In Your Eyes

Conway Twitty

Written By: Wayne Carson

G C G

I see the sparkling little diamond on your hand

C G

It's plain to see that you've already got a man

Bm C

I can see you're not about to fall for any of my lines

G C D

I See the want to in your eyes

Deep in your smile there's a quiet, soft desire

Like the embers of a once raging fire

You know I could light that fire again, you know it isn't
why

I see the want to in your eyes

Bridge:

G C G

How strong's a band of gold

C G Bm C

Is it strong enough to hold, when a love has grown cold

D

And a woman wants a love, sweet and warm

How many women just like you have silent schemes,

How many men like me do they sleep with in their
dreams

You can stay or you can go and although I sympathize

I still see the want to in your eyes

G C D

I see the want to in your eyes

HOARD
