And I wonder if you told her,
And I wonder if you told her about me?

Oh hello, fancy meetin' you
The girl you have with you sure looks sweet
But does she know you're talking to you're old used to
be
And I wonder if you told her
Yes, I wonder if you told her about me?

It sure is good to see you, it's been a long long time
Don't think I't's foolish of me if I weep
I just can't hide the power of, so many memories
And I wonder if you told her
Yes, I wonder if you told her about me?

--- Instrumental ---

Now I can see she loves you and you can see it too
She's got you on her mind constantly
But does she know the reason why I set her free
And I wonder if you told her
Yes, I wonder if you told her about me?

The party's almost over but let me say before I'd go
I'm glad at last you found your destiny
I told her that you love her and held her tenderly
And I wonder if you told her
Yes, I wonder if you told her about me?...
