"If You Can't Write The Music"

Visit "[If You Can't Write The Music](#)" on MotoLyrics.com

If you can't write the music you can't sing the song
If you don't feel like dancin' you can't clap along
There's a dream for every dreamer so let the band play
on
If you can't write the music you can't sing the song.

When your life has no direction try to understand
There's a rhyme for every line a place for every man
Join the celebration before the music fades
Don't just stand there watching start your own parade.

If you can't write the music you can't sing the song
If you don't feel like dancin' you can't clap along
There's a dream for every dreamer so let the band play
on
If you can't write the music you can't sing the song.

A winner's just a loser who made another try
So spread your wings and give your dream another
chance to fly
Reach out for a rainbow hold it in your hand
If you can't write the music why not lead the band.

If you can't write the music you can't sing the song
If you don't feel like dancin' you can't clap along
There's a dream for every dreamer so let the band play
on
If you can't write the music you can't sing the song.

If you can't write the music you can't sing the song
If you don't feel like dancin' you can't clap along
There's a dream for every dreamer so let the band play
on
If you can't write the music you can't sing the song...
