The pain, the pain of a broken heart  
The price I'll pay for loving you  
But I'll get over losing you.

I loved you from the very start  
I just can't seem to realize  
As burning teardrops fill my eyes  
You're leaving me today  
The pain, the pain of a broken heart  
I watch you walk away.  
I loved you from the very start  
The price I'll pay for loving you

But I'll get over losing you.  
--- Instrumental ---  
I lost my love, I lost my home  
I just can't seem to win  
If I get over losing you  
I'll never love again.  
The price I'll pay for loving you  
I loved you from the very start  
The pain, the pain of a broken heart  
But I'll get over losing you...
