I'm in the blue, blue mood now that you're gone, oh
wee

I'm in the blue, blue mood it's been a lonesome day
I'm in the blue, blue mood I see you everywhere
I reach out to hold you but you're not there
It's just my blue, blue mood.

Maybe someday love will come and stay
And things will turn out right
Oh, oh, oh, but for tonight
I'm in the blue, blue mood.

I'm in the blue, blue mood
I feel you everywhere
I turn around to talk to you but you're not there
It's just my blue, blue mood.

I'm in the blue, blue mood.
I'm in the blue, blue mood,
I'm in the blue, blue mood...
