Well, me and my girl

Went out the other night

Down Lovers Lane

We were walking

She said, honey child

Do you love me

Right away I started talking

Is a bluebird blue

Has a cat got a tail

If a blue bird's blue

Then, honey, I love you

Well, I held her close and kissed her

Then I looked in those big green eyes

She said, hey, boy, do you love me

I said I wouldn't be at all surprised

Is a bluebird blue

Can a big wheel roll

If a blue bird's blue

Then, honey, I love you

Well, she finally believed my story

Said, baby, I understand

Well, now I'm gonna be  
Your little loving girl  
And you'll be my big loving man  
Is a bluebird blue  
Ah, has a bear got hair  
If a blue bird's blue  
Then, honey, I love you  
Ah, is a bluebird blue, baby  
Tell me, honey, has a bear got hair  
Ooh, can a big wheel roll  
Aw, baby, has a cat got a tail
