We've lived more in a short time together  
Than we've lived in a lifetime before  
And this feeling that's burning inside me  
Is a thing of the future in store.

The short time we've spent together  
Oh, the love we give each other  
Is more than most people see in the lifetime  
You're all I ever live for.

Oh, no one could ever give more  
I can't see me without you  
Nowhere in my mind.

We've lived more in a short time together  
Than we've lived in a lifetime before  
And this feeling that's burning inside me  
Is a thing of the future in store...
