

Conway Twitty "Living Together Alone"

Visit "[Living Together Alone](#)" on MotoLyrics.com

I can't believe the life we live
Or the love that we can't give to each other
I only know my dreams are gone
And that you've been carrying on with another.

That won't let us stop it
We're too blind to drop it
So we still go on
Living together alone.

--- Instrumental ---

Oh, I don't know how long we'll survive
Living here where love has died it's a wonder
Loneliness surrounds this house now
We'll get by, I don't how we're together.

A house that's dividing will tumble to the ground
And yet we still go on living together alone
And yet we still go on living together alone...
