You gave her things you thought she wanted  
Pretty things to pass her time away  
The things you bought can never hold her  
Only love can make her stay.

Only love can make her stay  
And keep her safe from hungry ones when you're away  
She just needs to know you love her  
Only love can make her stay.

--- Instrumental ---

Only love can make her stay  
And keep her safe from hungry ones when you're away  
She just needs to know you love her  
Only love can make her stay...
