Hey!  
Hello baby, Conway here  
Let me lay this in your ear  
Get ready to go  
We gonna roll about sundown

I got some boogie woogie music  
On the old 8-track  
Yeah, I got the top laid back  
We'll go cruisin'  
We'll go foolin' around

Well, here I am baby, ready to play  
Slide it on in, we'll slip away  
We gotta get it, we ain't got a minute to waste

I got a 6-pack of longnecks  
In the trunk on ice  
Oohh - but, you sure look nice  
Makes me want to hug you  
And kiss you all over your face

It's a red-neckin', love-makin' night  
You ain't had much till you  
Been touched in the moonlight  
You feel it most when you get  
Real close and you hold on tight  
It's a red-neckin', love-makin' night  
It's a red-neckin', love-makin' night

--- Instrumental ---

Stars in your eyes, wind in your hair  
Oh, what a down home love affair  
When we go out walkin'  
We know what we're talkin' about

Listen to the wipperiwills  
How they sing  
Just like us, they doin' their thin'  
We know what we got  
When the night gets hot down south

It's a red-neckin', love-makin' night  
You ain't had much till you  
Been touched in the moonlight  
You feel it most when you get  
Real close and you hold on tight  
It's a red-neckin', love-makin' night  
It's a red-neckin', love-makin' night

It's a red-neckin', love-makin' night  
You ain't had much till you  
Been touched in the moonlight  
You feel it most when you get  
Real close and you hold on tight  
It's a red-neckin', love-makin' night  
It's a red-neckin', love-makin' night

--- Instrumental ---

Laugh... HEY!  
Eat your heart out children  
Laugh... you know I love you  
(Red neckin', love makin' night)  
Now don't wreck-in my phone son  
Let him in there  
Hey, hey, hey  
(Hold on tight)  
(Ah yes)

It's a red-neckin', love-makin' night  
You ain't had much till you  
Been touched in the moonlight  
You feel it most when you get  
Real close and you hold on tight  
It's a red-neckin', love-makin' night  
It's a red-neckin', love-makin' night...
