

Conway Twitty "Seasons Of My Heart"

Visit "[Seasons Of My Heart](#)" on MotoLyrics.com

The seasons come the seasons go
We get sunshine rain and snow
Just the way that it was planned to be.
But there's no seasons in my heart
While you play the leading part
'Cause the flowers will bloom eternaly.

Your leaving will bring autumn sorrow
And my tears, like withered leaves will fall
But spring could bring some glad tomorrow
Darling, we could be happy after all.

--- Instrumental ---

Your leaving will bring autumn sorrow
And my tears, like withered leaves will fall
But spring could bring some glad tomorrow
Darling, we could be happy after all.

And she did, and it did, and Lord knows I didn't
And I know I'll never again
She left me somewhere between, it's over and the end
With more than an effort to destroy any man.

There'll never be another to share the love that lives
'Cause her leaving left me no love to give

I knew if she left me it would surely destroy me
I'll never forget her for the love we had then.
And she didm and it did, and Lord knows
I didn't and I know I'll never again.

--- Instrumental ---

I knew if she left me it would surely destroy me
I'll never forget her for the love we had then.
And she didm and it did, and Lord knows
I didn't and I know I'll never again...
