

Conway Twitty "Send Her To Me"

Visit "[Send Her To Me](#)" on MotoLyrics.com

Earth that I live on, sky up above
Where is that someone meant for my love
Green covered valleys, rivers that flow
Somewhere there's someone for me I know.

God made a woman for every man
Help me to find her, earth if you can
Stars as you twinkle, moon as you shine
Help me to find her, this love of mine.

Earth that I live on, my life is bare
Won't you take pity on my despair
Wind as you wander, sun as you shine
Help me to find her, this love of mine.

Ask every white cloud high in the air
A-search every forest, I'll see if she's there
Comb every mountain, far out to sea
Earth that I live on send her to me.
