Don't tell me you don't love me even if it's just in fun
I love you so much the shock of it would kill me before
you were done
And never say you're leaving I die before you could
start
When it comes to you and our love I have sensitive
heart.

I never knew such happiness I feel with you each day
and night
I never thought a woman could mean so much to one
man's life
Tears come to my eyes just thinking that we could ever
part
For darling I love you so much in my sensitive heart.

I never knew such happiness I feel with you each day
and night
I never thought a woman could mean so much to one
man's life
Tears come to my eyes just thinking that we could ever
part
For darling I love you so much in my sensitive heart..
