Let's do business, invest in you and me
I'm makin' you an offer that you can't refuse
You don't tell my woman and I won't tell you're man
I guarantee you just can't lose.

Yes, I'll be your silent partner
Under cover sneaky side
Yes, I'll be your silent partner
Be your lover for awhile.

Let's be quiet and no need to publicise
No one knows what no one tells
And how 'bout me stayin' in the middle afternoon
And work out all the small details.

Yes, I'll be your silent partner
Under cover sneaky side
Yes, I'll be your silent partner
Be your lover for awhile.

--- Instrumental ---

We can profit once we organize
Keep our company on the side.

Yes, I'll be your silent partner
Under cover sneaky side
Yes, I'll be your silent partner
Be your lover for awhile.

Will you be my silent partner
Under cover sneaky side
Won't you be my silent partner
Be your lover for awhile.

Won't you be my silent partner
Under cover sneaky side
Will you be my silent partner...
