I know you know what's on my mind
It's been coming on for some time
There's no way for us to stop it, if we just let go

Who's gonna know
(Who's gonna know if we touch each other?)
Who's gonna know
(Who's gonna know how it feels together?)
If we share our love, who's gonna know?

We've run away from this before
But we can't do that anymore
Sitting here with our hearts on fire
And nobody's looking

Who's gonna know
(Who's gonna know if we touch each other?)
Who's gonna know
(If we spend this night together?)
If we share our love, who's gonna know?

Let's go down that narrow road to heaven
Who's gonna find out? Who's gonna know?
Who's gonna hurt if we do? Who's gonna know?
If we share our love, who's gonna know?
