

Conway Twitty "You Put It There"

Visit "[You Put It There](#)" on MotoLyrics.com

You see this smile on my face
You put it there
There was a time you couldn't barely trace
Any one anywhere.

Now I got dreams, the future's mine
Built outta rock, it won't turn to sand
'Cause I got love in my life
And you put it there.

--- Instrumental ---

There's a high step in my walk
And you put it there
You make me feel ten feet tall
Because you care.

I had no one to call my own
Spent every night all alone.
Now I've got love in my life
And you put it there.

Oh, what a difference
Your sweet love made in me
I was like a puzzle with pieces missin'
So incomplete.

But you put me together
With two loving arms
Made me feel like I am someone
Yeah, I got love in my life
And you put it there.

Talkin' 'bout love in my life
And you put it there...
