MICS CHROUS

Im feeling it

(it aint the game its how u play it)

And it aint what you say its how u say it

They told me to just do what I do

So when you see me IÂ'll be cooler than kool

You gotta feel me

MICS

(OKAY) I wanna admit that I done been thru the
struggles fam

I looked death in the face and aint neva ran

Nd yall niggas know me better than that

So when it comes to movin up im not peddling back
Late night hustling niggas was peddling crack
They would get knocked by the cops and aint neva
come back
So I changed my style up and I left the city life alone
Tried to leave rap but it just kant leave mics alone
(im feelin it)
& I just kant leave the mic alone
U kno the feelin on the stage when the lights is on
Nd the fame will change ya life
But change is the only thing that remains the same in
life
We just players in the game of life
And im mr. fourth quarter so the game is tight
While yall niggas was tryna be gangstas I was busy
Tryna be famous

MICS CHROUS

Im feelin it
(it aint the game its how u play it)
And it aint what you say its how u say it
They told me to just do what I do
So when you see me IÂ'll be cooler than kool
You gotta feel me
