Champion a cause that you don't understand  
Visions and rumour led you astray  
Rule with your heart (not your heads-that's the wrong  
way)  
Decision on truth that's what you said

Out there they put our ghosts in the rockets  
Oceans of hope all wish we'd choke if we taught it  
Its all undercover they said

Blackmail and white lies  
Through trainee whiskey eyes  
Perception no object on trail  
A cheap neon city the friction within me  
In daylight we're destined to fail  
They were caught out  
Stick to the grooves that you've tread
