"Proof Of Honesty"

Hey, you told me that you knew me
I thought I had it all
The story I've been dreaming of
The story I had inside
We use to have it perfect, we use to have our times
but now I'm lost and lonely, it's over

I'm not a liar, remember when you said
that I'm a liar?, not sure you understand

I'm sorry if I hurt you
I'll never be the same
My regrets have taken over
try to understand me now
you've got my whole confession
I'm sorry for what I did
There's nothing left to prove now
it's over

I know you
You know me
Who need me?
You need me
