"Heavy rain"

Visit "[Heavy rain](#)" on MotoLyrics.com

Will there ever be peace in the valley?
Will the angels ever sing?
Will the good Lord's spirit
Bring peace within?

The way you call out my name makes me
I think about the good life
I can have with you
And live the good life like young lovers are supposed
to do
I think about the good life
I can have with you
And live the good life like young lovers are supposed
to do
When quit those evil ways

Will I ever get out of the rain?
It seem to nail me every time
Heavy rain keeps falling
From a big black sky

The way you call out my name makes me
I think about the good life
I can have with you
And live the good life like young lovers are supposed
to do
I think about the good life
I can have with you
And live the good life like young lovers are supposed
to do
When quit those evil ways

Heavy rain (*3)
