Muddy river of loneliness
For the boredom of the road
With no sign of disrespect
For the dark and heavy load
For tomorrow
They made love upon the morning
To the beating sound of love
All her secrets disclosed
Laying in his arms
My lips won't let you

Muddy river of loneliness
For the boredom of the road
With no sign of disrespect
For the dark and heavy load

They made love upon the faithless morning
To the beating sound of love
All her secrets disclosed
Laying in his arms

Muddy river of loneliness
For the boredom of the road
x3

Muddy river of loneliness
For the boredom of the road
My lips won't let you
