I've looked around for tears and regrets where love  
resides

With a rage and a pain your love still hides

Hold me closer, I need someone near

Hold me closer, my failing crop is here

Sweeping daylight of my feet x3

But it was all my call, now there's blood on the wall

Will the price be put on my head for the memory I put to  
rest

Hold me closer, I need someone near

Hold me closer, my failing crop is here

Sweeping daylight of my feet x3

Sweeping daylight of my feet x6
